

Bill Number: Fiscal Year 2010 Defense Appropriations Bill

Account: Information Technology Development

Legal Name of Requesting Entity: Space & Naval Warfare Systems Command (SPAWAR)
Address of Requesting Entity: 2251 Lakeshore Drive, New Orleans, LA 70145

Description of Request: I have secured \$2,500,000 for Space & Naval Warfare Systems Command (SPAWAR). It will fund a 3D modeling simulation which will allow NASA and DOD to model their manufacturing and testing complexes, facilities, and processes prior to deployment. Modeling prior to development reduces initial costs and minimizes ongoing production. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman STEVE SCALISE

Bill Number: Fiscal Year 2010 Defense Appropriations Bill

Account: Enterprise Information Technology

Legal Name of Requesting Entity: Space & Naval Warfare Systems Command (SPAWAR)
Address of Requesting Entity: 2251 Lakeshore Drive, New Orleans, LA 70145

Description of Request: I have secured \$7,500,000 for Space & Naval Warfare Systems Command (SPAWAR). The funds will be used for sustaining critical joint Navy/University information systems research and technology transfer in partnership with the University of New Orleans and local small businesses and industry. Funding will update the current operations environment at the Space and Naval Warfare Systems Center. I certify that neither I nor my spouse has any financial interest in this project.

Requesting Member: Congressman STEVE SCALISE

Bill Number: Fiscal Year 2010 Defense Appropriations Bill

Account: Special Operating Forces Underwater Systems

Legal Name of Requesting Entity: Space & Naval Warfare Systems Command (SPAWAR)
Address of Requesting Entity: Naval Special Warfare, San Diego, CA 92135

Description of Request: I have secured \$1,000,000 for Space & Naval Warfare Systems Command (SPAWAR). It will fund a new generation submersible, capable of conducting insertion & extraction of Special Operation Forces personnel and/or their payloads. Technology services would be headquartered in Mandeville, Louisiana. I certify that neither I nor my spouse has any financial interest in this project.

EARMARK DECLARATION

HON. JUDY BIGGERT

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 28, 2009

Mrs. BIGGERT. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 3326, the Department of Defense Appropriations Act, 2010.

Requesting Member: U.S. Representative JUDY BIGGERT

Bill Number: H.R. 3326

Account: OM, AF

Legal Name of Requesting Entity: Chemring Scot Inc.

Address of Requesting Entity: 2525 Curtiss Street, Downers Grove, IL 60515

Description of Remarks: Provide an earmark of \$2,000,000 for Chemring Scot Inc. for the procurement of Joint Aircrew Combined System Testers (JCAST). The JCAST is a self-contained, portable tester, eliminating the need for multiple pieces of equipment to test aircrew flight equipment.

EARMARK DECLARATION

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 28, 2009

Mr. SHUSTER. Madam Speaker, consistent with the Republican Leadership's policy on earmarks, I am submitting this statement.

Requesting Member: Congressman BILL SHUSTER (PA-9)

Bill Number: H.R. 3326—Department of Defense Appropriations Act, FY 2010

DEFENSE APPROPRIATIONS PROJECTS

Project Name: Cadmium Emissions Reduction—Letterkenny Army Depot

Account: RDTE, A

Legal Name of Requesting Entity: Mountain Research, LLC

Address of Requesting Entity: 825 25th Street, Altoona, PA 16601

Description of Request/Justification of Federal Funding: \$1,000,000 for Cadmium Emissions Reduction—Letterkenny Army Depot

This project is a valuable use of taxpayer funds because this work will help Letterkenny Army Depot conduct environmental management activities in an environmentally and fiscally sound, sustainable manner.

Letterkenny's unique mission, which includes manufacturing, depot level maintenance, and demilitarization, presents significant challenges to maintaining operations while achieving aggressive sustainability targets and goals. Specifically, this project will assist in addressing federal and state regulatory issues associated with the reduction of cadmium levels in waste water affluent outflows. This technology implementation will also serve as a demonstration site to facilitate horizontal technology transfer to surrounding Pennsylvania military installations, other Army depots, and installations across the Department of Defense.

Project Name: Defense Support for Civil Authorities for Key Resource Protection

Account: RDTE, A

Legal Name of Requesting Entity: L. Robert Kimball & Associates

Address of Requesting Entity: 615 West Highland Avenue, Ebensburg, PA 15931

Description of Request/Justification of Federal Funding: \$1,000,000 for Defense Support for Civil Authorities for Key Resource Protection

The Defense Support for Civil Authorities (DSCA) for Key Resource Protection—South Central, PA project is part of efforts led by U.S. Army ARDEC at Picatinny, New Jersey combining and harmonizing a number of Homeland Defense and Homeland Security programs under the umbrella of Project National Shield (PNS). The National Infrastructure Pro-

tection Plan (NIPP) mandates a coordinated approach to Critical Infrastructure and Key Resources (CIKR) protection roles and responsibilities for federal, state, local, tribal, and private sector security partners. The ability to sense, detect and respond to threats to CIKR will require regional communication and information sharing capabilities. The fundamental geospatial data needed to manage CIKR risk and establish the framework for assessing consequences, vulnerability, and threat information is available in jurisdictions across the country. Not available, however, are Enterprise Geographic Information Systems (EGIS) that span political jurisdictions, regions or states and can produce the comprehensive, systematic, and rational assessment of national or sector risk.

South Central Pennsylvania houses a major freight transportation hub (CSX railway) and Army weapons depot (Letterkenny) within miles of each other. This proposal will establish EGIS in South Central PA to advance NIPP objectives. Response-specific intelligence will provide emergency responders and homeland defense personnel with essential situational awareness information required to protect critical infrastructure.

This project is a valuable use of taxpayer funds because it meets a critical Army need to improve Homeland Defense and Civil Support missions while also providing enhanced capabilities to local constituencies in the communications and networking side of emergency response. Specifically, the program represents the actual full deployment of a critical network that will allow local Emergency Management personnel and first responders to communicate as well as provide for a tie in to the Army's Emergency Operations Center at Picatinny Arsenal.

Project Name: Nurse Education Center of Excellence for Remote and Medically Underserved Populations

Account: RDTE, A

Legal Name of Requesting Entity: Saint Francis University

Address of Requesting Entity: 117 Evergreen Drive, Loretto, PA 15940

Description of Request/Justification of Federal Funding:

\$2,000,000 for Nurse Education Center of Excellence for Remote and Medically Underserved Populations (CERMUSA)

This project will allow CERMUSA to collaborate with clinical partners and other key Army stakeholders to develop and implement a multi-pronged strategy to address the core issues impacting the military's ability to maintain the supply of active duty registered nurses.

This project is a valuable use of taxpayer funds because these strategies will serve to address the shortages of registered nurses as well as nurse educators and will, as a final outcome, function as a core strategy for recruitment and retention.

Currently, the Army has approximately 59,000 enlisted personnel serving as medics in a variety of theatres, including Iraq and Afghanistan. These medics are promising nursing students because of their affinity for treating and managing injured warriors. Despite the formal training supplied by the Army and the vast life support skills they acquire, they possess no diploma or certification to practice healthcare in civilian institutions. Many medics pursue a career in healthcare once leaving active duty. On the sheer basis of volume alone,
